Warning: There was a malfunction with the timing software after the 24:35 time mark in the race. At this time we had to quickly transition to manual timing and did our best to accurately capture your finish. Also, some of the bib numbers appear to have been accidentally swapped for some family or friends that registered at the same time. Thank you for your understanding and more importantly for your participation. We really look forward to seeing you again in 2014!
